

# Compuprint 3056/N

The Compuprint 3056 and 3056N are designed to be the ideal solution for administrative applications as well for industrial and logistics environments.

These printers satisfy a wide range of printing solutions thanks to the architectural simplicity of the front form feed and refined printing technology.

Compuprint 3056 and 3056N are suited for printing applications using multipart forms, single sheets, labels and envelopes.

### Value and Features

- 24 pins print-head technology
- 500 cps speed
- Complete and flexible paper path
- Single sheet and fanfold handling
- 1+5 copies capability
- Wide range of connectivity
- Easy to use
- Wide range of barcodes and fonts

### Matching your needs and getting your job done in time

Compuprint 3056 and 3056N are ideal for use in a broad range of industries, from data processing, banking, pharmaceuticals or healthcare, warehouse and logistic, education and public administrations.

These printers in single or multiuser environments print at speeds of up to 500 characters per second in draft mode offering an excellent print quality with clear, crisp output of text and graphics.

### Safe and simple paper management

Thanks to the possibility to choose either front or rear paper feed these printers are the best solution for all types of working environment. Straight feeding enables a wide variety of both single sheet, continuous and multiple copy forms to be managed in a safe and reliable manner.

It is also possible to install both printers a second tractor to improve the productivity.

### For a broad range of connectivity

Compuprint 3056 is available in two different configurations, Parallel/Serial/USB or Parallel/USB/LAN to let the user able the installation on networked environment. The LAN models are provided with a Network Interface Manager which is a software used to manage on-line network dot matrix printers.
